**JODIDAR INDIA · Raipur, Chhattisgarh · India · February 2026**

# The Problem

**10 million SMEs are locked inside 30-year-old desktop accounting.**

|                                  |                                                               |
|----------------------------------|---------------------------------------------------------------|
| <b>₹0 spent on cloud</b>         | Tally & Busy have no native mobile, no dashboards, no AI.     |
| <b>Owner is blind</b>            | Cannot see today's sales, dues, or dispatch from their phone. |
| <b>Salesman is deaf</b>          | Zero real-time price · stock · dues on the field.             |
| <b>Data leaks via screenshot</b> | SME operators email or WhatsApp Tally screenshots.            |

*Migration off Tally is a non-starter — the CA firm won't sign off.  
So how do you fix a market that refuses to switch?*

# Our Solution

**Don't replace Tally. Bolt onto it.**

**Step 1** — Customer installs our desktop agent (5 minutes, one-time).

**Step 2** — Agent pushes data to our cloud every 5 minutes. Read-only. Delta-sync. Zero writeback risk.

**Step 3** — Owner, salesman, CA, dispatcher get their own login. Mobile-first PWA + AI insights.

**Result:** A cloud + AI operating system for the customer's existing Tally / Busy install — with zero switching cost, zero data risk, and zero training.

## What ships today

- Tally Sync Agent v9.8.30 · Busy Sync Agent v1.2 (both live)
- Cloud dashboards · Dispatch Kanban · Salesman Beat PWA · CA Corner
- AI narrative insights via Emergent LLM key (GPT-5)
- 1 paying Enterprise customer (Krishna Sales Corp) live since Q4 2025

# Traction

Product live · paying customer live · shipping fortnightly.

## Verbal LOIs — closing post-Seed

- Distributor · Raipur — **Enterprise** (₹38 K ARR)
- Wholesaler · Bhilai — **Professional** (₹25 K ARR)
- Retail chain · Nagpur — **Enterprise**
- Manufacturer · Indore — **Professional**
- CA firm · Raipur — **White-label** (unlocks 12 downstream clients)

**Channel unlock: One CA firm brings 8-15 SME clients. First channel partner signs Q1 FY26-27.**

# Market

**A ₹14,000 Cr TAM sitting on 30-year-old software.**

| Segment                         | Customers  | Market ₹ (yr) |
|---------------------------------|------------|---------------|
| <b>TAM · Total addressable</b>  | 14 M SMEs  | ₹14,000 Cr    |
| <b>SAM · Tally + Busy users</b> | 3 M SMEs   | ₹3,000 Cr     |
| <b>SOM · 5-year target (5%)</b> | 150 K SMEs | ₹150 Cr       |

## Why now

- GST e-invoicing has expanded to all ₹5 Cr+ SMEs — cloud data is no longer optional
- Mobile-first workforce: 80% of SME salesmen use WhatsApp today — FLOWRA is the structured replacement
- AI expectations from SME owners are now shaped by ChatGPT, not by Tally
- Our Y5 target of ₹5 Cr ARR = **0.03%** market share. This is a 1-in-1000 penetration play.

# Business Model

Simple SaaS · monthly billing · self-serve upgrades.

| Free          | Starter          | Professional     | Enterprise       |
|---------------|------------------|------------------|------------------|
| ₹0            | ₹833             | ₹2,083           | ₹3,166           |
| Top of funnel | per company / mo | per company / mo | per company / mo |

## Highlights

- Blended paid ARPU ~₹1,700/mo — below Zoho One's cheapest tier
- Zero setup fee · cancel anytime · monthly invoice via Resend
- 10% annual-prepay discount → targets 40% cash-flow lift by Y3

**Benchmarks: Indian SaaS median is LTV:CAC 3× · payback 15-24 mo. We ship 7.9× · 5.1 mo. Every rupee spent on sales returns in under a quarter.**

# 5-Year Trajectory

Base case · locked to founder inputs · path to profitability by Y5.

| Metric           | FY26-27 | FY27-28 | FY28-29 | FY29-30 | FY30-31 |
|------------------|---------|---------|---------|---------|---------|
| Paying customers | 100     | 400     | 900     | 1,500   | 2,000   |
| ARR (₹ Cr, end)  | 0.20    | 0.86    | 2.04    | 3.61    | 5.10    |
| EBITDA (₹ Cr)    | -1.32   | -1.51   | -1.20   | -0.60   | +0.26   |

**Milestone:** ARR crosses ₹1 Cr in Y2 (400 customers · triggers Series A on strong metrics). EBITDA flips positive in Y5. Cumulative Y1-Y5 burn ≈ **₹4.2 Cr** — covered by the full ₹8.5 Cr two-tranche raise with ₹4+ Cr safety buffer.

# The Ask

Two-tranche raise · low dilution · big valuation step-up.

₹2.5 Cr

Seed · today · 18% dilution

₹6.0 Cr

Series A · Feb 2028 · 18%  
dilution

## Use of Seed ₹2.5 Cr (24-month runway)

- **44%** Product & engineering (5 hires)
- **24%** Sales & channel partners (3 hires)
- **14%** Marketing (Google Ads · YouTube · SME events)
- **8%** Infrastructure (MongoDB Atlas · LLM · WhatsApp API)
- **10%** Working capital · legal · buffer

**Milestone by Series A (Month 24): 400 paying customers · ₹1 Cr ARR. Series A investor sees ₹1 Cr → ₹5 Cr trajectory. Founders retain ~65% post both rounds.**

# Team & Contact

**3 founders · 1 senior engineer · shipping since 2024.**
