

FLOWRA Insights vs Tally & Busy

Column-by-column mapping of the pain points that Indian SMEs live with today — and exactly what FLOWRA Insights ships to solve each one.

✗ pain / limitation

✓ FLOWRA solution

Module = FLOWRA area

Module & Area	Tally Pain	Busy Pain	FLOWRA Insights Solution
Access & Cloud Mobile / anywhere access	✗ Desktop-only. Owner must sit at the office machine to see today's numbers.	✗ Desktop-only. No first-party mobile app.	✓ 100% cloud + mobile-first UI. Owner, Salesman, Dispatch & CA each get their own dashboard on phone or laptop.
Access & Cloud Live data sync	✗ Data refreshes only when someone hits F12 / synchronises companies.	✗ No auto-cloud push. SQL data locked to the office LAN.	✓ Windows Sync Agent (v9.8.28) reads Tally / Busy every 60 s and pushes to encrypted Mumbai-region MongoDB.
Access & Cloud Multi-company / multi-branch view	✗ Only one open company at a time. Consolidation is manual.	✗ Same one-company-at-a-time UX.	✓ Single dashboard aggregates ALL companies + branches. Exclude-branch toggle for consolidated P&L.;
Analytics Owner dashboards	✗ Reports are tabular text. No visual analytics layer.	✗ Very basic charts, none role-tuned.	✓ Interactive dashboards with 11-month rolling trends, drill-downs, & AI narratives.
Analytics AI insights	✗ Zero AI layer.	✗ Zero AI layer.	✓ GPT-5 + Gemini powered "Ask FLOWRA" — natural-language Q&A; on your own books, in English or Hindi.
Analytics Custom AI reports	✗ Requires TDL programming or Excel gymnastics.	✗ Requires macros / external tools.	✓ Type a question, get a structured chart + narrative in seconds. Saved to a shareable report history.
Sales & Receivables Aging & follow-up	✗ Aging report is static — no thresholds, reminders, or external sharing.	✗ Similar — reports run on-demand only.	✓ Live receivables aging with thresholds, auto-email reminders, WhatsApp nudges, & top-defaulter panel.
Sales & Receivables Recovery workflow	✗ No native recovery workflow.	✗ No native recovery workflow.	✓ AI Calling Bot (rolling out) + WhatsApp templates + task-based follow-ups per customer.

FLOWRA Insights vs Tally & Busy (continued)

Module & Area	Tally Pain	Busy Pain	FLOWRA Insights Solution
Inventory ABC classification	× No native ABC classification.	× No native ABC classification.	✓ Auto ABC classification based on rolling revenue + editable per item.
Inventory Movement analysis	× Manual filter reports; no fast-mover / slow-mover view.	× Manual filter reports.	✓ Movement analysis on a rolling 11-month window with valuation, velocity & fast/slow-mover tags.
Inventory Purchase Order generation	× Manual — accountant creates each PO from scratch.	× Manual.	✓ One-click AI-suggested PO from ABC + reorder level + last purchase price.
Inventory Group filters & exports	× Single-group filter; exports lose selected filters.	× Basic filters; PDFs pre-set templates only.	✓ Multi-group filter, filter-aware CSV / Excel / PDF exports with correct extensions & data.
Salesman App Field ordering	× No native salesman app. Orders arrive on paper / WhatsApp; re-typed manually.	× No first-party field-sales module.	✓ Mobile Salesman App: beat plans, daily check-ins, order + payment Yes/No capture, close-day PDF report.
Salesman App Beat / route planning	× Doesn't exist.	× Doesn't exist.	✓ Weekly beat plans per salesman + auto-generated daily route + visited / unplanned distinction.
Salesman App Handover on attrition	× Manual — new salesman starts from scratch.	× Manual.	✓ One-click "Copy customer mapping + beat plan" from outgoing to incoming salesman.
Dispatch Warehouse workflow	× No dispatch module — pickers use paper slips.	× No dispatch module.	✓ Kanban terminal: NEW → QUEUED → PACKED → DISPATCHED, plus porter assignment.

FLOWRA Insights vs Tally & Busy (continued)

Module & Area	Tally Pain	Busy Pain	FLOWRA Insights Solution
Dispatch LR / Bilty documents	× No place to attach LR / bilty photos to an invoice.	× No document store.	✓ Photo upload from dispatch phone → attached to invoice → visible to Owner & CA (Google Drive integration planned).
CA / Compliance CA remote review	× CA takes a backup and opens Tally locally to review.	× Similar — CA opens the client's file.	✓ CA Corner: read-only tenant-scoped view of vouchers, GST, TDS, balance sheet — accessible from any laptop.
CA / Compliance GST reconciliation	× Manual GSTR JSON downloads + Excel reconciliation.	× Manual.	✓ GST Portal integration (roadmap) — auto reconciliation & discrepancy list inside CA Corner.
Notifications Alerts / triggers	× No email / WhatsApp alerts. Owner must check manually.	× Same — no push notifications.	✓ Auto-triggered emails for insights, high-risk receivables, dispatch bottlenecks. Global CCs & branded templates.
Multi-FY & Roles Financial-year handling	× Every new FY often means a fresh company file / heavy re-open cycle.	× New-year re-configuration.	✓ Multi-FY built-in. Owner toggles FY at top; salesman FY-scoped mappings; auto-rollover.
Multi-FY & Roles Role-based access	× Only Admin + limited Data Entry. No dispatch-only or salesman-only role.	× Multi-user but complex to configure.	✓ Admin / Employee / Salesman / Dispatch / CA out of the box. Employee activate-deactivate toggle.
Data Safety Tenant isolation	× N/A — single-tenant local install; backup restores are risky.	× N/A.	✓ Multi-tenant SaaS with query-level tenant isolation. Two customers can never see each other's data.
Data Safety Backups & DR	× Manual .tsb file, often on the same machine.	× Manual .bkp file — often local.	✓ Continuous MongoDB Atlas backups (Mumbai region) + on-demand encrypted download.

FLOWRA Insights vs Tally & Busy (continued)

Module & Area	Tally Pain	Busy Pain	FLOWRA Insights Solution
Value-adds Loyalty program	× Not offered. SME has to buy Capillary / LoyaltyXpert separately.	× Not offered.	✓ Built-in FLOWRA Loyalty: points on every Tally sales voucher; Silver / Gold / Platinum tiers; redemption on next invoice.
Value-adds Task & workflow engine	× No native task or reminder engine.	× No native task engine.	✓ Built-in FLOWRA Tasks: assign to salesman / dispatch / CA. Tally-data-aware triggers auto-create tasks.
Value-adds Referral / growth	× Not offered.	× Not offered.	✓ Built-in referral code system with rewards ledger for existing users.
Value-adds Bilingual UI	× English only.	× English only.	✓ English + Hindi bilingual UI — rolling out module by module.
Ops & Pricing Auto-update	× Manual .exe patch each year — customer downloads & installs.	× Manual patch downloads.	✓ Zero-touch auto-updating agent (v9.8.28 in prod). Backend hot-reloads without downtime.
Ops & Pricing Pricing model	× Perpetual license + AMC — high upfront cost.	× Perpetual license + AMC.	✓ Subscription SaaS — currently in pilot; commercial rollout post-pilot with per-user add-ons.
Ops & Pricing Vendor lock-in / integrations	× Tally-only. SME stitches 4-5 third-party apps to fill gaps.	× Busy-only.	✓ One integrated suite — Sales, Inventory, Salesman, Dispatch, CA, AI, Tasks, Loyalty, Referral.

Bottom line — FLOWRA is not a replacement for Tally or Busy. It sits ON TOP of them, reads their data every 60 seconds, and adds the cloud + mobile + AI + workflow layer that Indian SMEs need in 2026. Zero workflow change for the accountant. Zero disruption during install. One integrated suite instead of five disjointed tools.
