Problem-Solution Post

Every distributor knows this pain:

- You're at a client meeting but need to check their outstanding
- Your accountant is on leave and you need today's sales figures
- You suspect dead stock but can't run Tally reports from your phone
- Branch transfers inflate your actual sales numbers

FLOWRA solves all of this.

One Desktop Connector. 2-minute setup. Your entire Tally data on your phone.

With our Branch Toggle, you can instantly separate real customer sales from internal depot transfers.

Try it free for 14 days: www.flowralive.in
