

FLOWRA INSIGHTS

Tally & Busy data, finally working for you.

Real-time analytics, CRM, dispatch, salesman orders and CA reports — synced directly from Tally Prime or Busy Accounting. Built for Indian SMEs.

Who this deck is for

Indian business owners, CFOs, accountants, and CAs who use Tally or Busy and want their data to do more than sit in a backup file.

WHY

Tally and Busy run the back office. FLOWRA runs the dashboard.

Indian SMEs already trust Tally / Busy with their accounting. The problem isn't the data — it's the access. Reports live on one Windows desktop. Salesmen can't see stock. CAs can't drill into a ledger. Owners can't see overdue payments without calling someone.

FLOWRA Insights is a thin, secure, real-time layer on top of your existing accounting — no migration, no data import, no risk.

Sync source	Tally Prime (Agent v9) and Busy Accounting (Agent v1)
Data residency	MongoDB Atlas, Mumbai (ap-south-1) — DPDP-compliant
Encryption	256-bit at rest and in transit
Sync frequency	Every 5 minutes (sales) / 20 minutes (full)
Tenant isolation	Every record tagged with tenant_id; cross-tenant access impossible
Multi-company	Up to ~25 companies under one admin (plan-dependent)

WHAT'S INSIDE

11 modules, all working from the same synced data.

Dashboard	Total Sales, Inventory Items, Low Stock, FY Sales Value, Overdue Payments, Recent Transactions, Top Customers.
Sales	All sales vouchers with filters, search, drill-down, and Excel export.
CRM	Customer outstanding (FY-aware), targets, follow-ups, branch toggle, ageing buckets, payment behaviour.
Inventory	Stock items with auto-reorder based on 2-month sales velocity, movement analysis, low-stock alerts.
Analytics	Inventory movement, below-cost sales, sales frequency, customer-item breakdown, SPIP analysis.
Salesman Orders	Mobile-first order collection, customer mapping, approval workflow, billing verification.
Dispatch Terminal	Kanban board, transporter/porter settlement, Close-of-Day PDF, document uploads, online orders.
CA Corner	Cash Flow, P&L; (monthly/annual), Balance Sheet, ledger drill-down, AI expense insights.
AI Reports	GPT-5.2 narrative reports — sales trends, customer insights, inventory movement.
Insider Result	AI cards on the dashboard surfacing slow movers, customer drift, anomalies.
Sync History	Per-cycle log of every sync — agent version (Tally / Busy), counts, FY, mode.

PRICING

Three plans. Pay annually for two months free.

Starter — ■999 / month

1 company, 2 employees. Dashboard, Sales, Inventory, Tally* sync. Perfect for small businesses getting started.

Professional — ■2,499 / month

3 companies, 5 employees. Adds CRM, Outstanding tracking, Movement analytics, Excel/PDF exports.

Enterprise — ■3,799 / month

Unlimited companies & employees. Adds CA Corner, Dispatch Terminal, Salesman Orders, AI Reports, Insider Result, priority support.

Free 14-day trial

All plans include a 14-day no-credit-card trial. Connect your Tally or Busy in <2 minutes and start seeing data immediately. Cancel anytime — your data exports as Excel/JSON in one click.
