

COMING SOON

FLOWRA — Upcoming Features

Dispatch Terminal | Salesman Order System

FLOWRA

www.flowralive.in

Dispatch Terminal

Real-time warehouse dispatch management — like McDonald's KDS for your godown

THE VISION

- > Live dispatch board synced with Tally* invoices in real-time
- > Employee-operated touchscreen terminal in the dispatch area
- > Every invoice becomes a dispatch card with full tracking lifecycle
- > Physical verification checkpoint — nothing leaves without confirmation
- > End-of-day dispatch summary with complete audit trail

KEY DIFFERENTIATOR

- Turns FLOWRA from a reporting tool into an operational warehouse tool
- No Tally* analytics product in India offers dispatch terminal today
- Built for distributor warehouses — touchscreen-first, dark theme, large fonts

Invoice Dispatch Card

Every detail captured at the dispatch point

CARD DATA FIELDS

Invoice Number	Auto-synced from Tally* sales invoice
Party Name	Customer / buyer name from Tally*
Total Boxes	Number of boxes/cartons in consignment
Items Billed	Complete item list — each physically verified
Transport Name	Which logistics company / self delivery
Destination City	Where the consignment is going
Paid Charges	Transport charges + porter charges recorded
Porter Name	Who carries consignment to the transport vehicle
Dispatched By	Employee name who processed this card
Status	Hold > Queued > Processing > Packed > Dispatched
Physical Check	Mandatory confirmation — all items in bill verified

Dispatch Workflow

Queue-based assignment with mandatory physical verification

STATUS LIFECYCLE

NEW

Invoice synced from Tally* — auto-created

QUEUED

Assigned to dispatch employee in rotation

PROCESSING

Employee picking & verifying items against bill

PACKED

All items physically checked, boxes counted, sealed

DISPATCHED

Handed to transport, porter recorded, charges logged

INFO SHARED

Invoice & dispatch details shared with customer

QUEUE SYSTEM

- > Cards auto-assigned to available dispatch employees in round-robin
- > Employee sees only their queued cards — focused workflow
- > Mandatory checkbox: 'All items in bill are physically verified'
- > Cannot move to PACKED without physical verification confirmation

DISPATCH + LOG

NOTIFY CUSTOMER

Manual Cards & Expense Tracking

Handle non-invoice dispatches and track every rupee spent

MANUAL DISPATCH CARDS

- > Create dispatch card without a Tally* invoice — for returns, samples, etc.
- > Mandatory reason field: Sample / Return / Replacement / Internal Transfer / Other
- > Same tracking lifecycle as invoice cards — full audit trail
- > Clearly tagged as 'MANUAL' in terminal and reports

PORTER EXPENSE TRACKING

- Every dispatch logs porter name + service charge
- Running account per porter — all jobs tracked automatically
- Weekly settlement report: total owed per porter
- Admin can mark 'Paid' with reference — clean ledger

TRANSPORT CHARGES

- > Record transport charges per dispatch (freight, handling, insurance)
- > Track paid vs unpaid per transporter
- > City-wise freight analysis over time

Porter Weekly Settlement

Sunil Kumar	47 jobs	Rs.4,700
Raju Yadav	32 jobs	Rs.3,200
Mohan Singh	28 jobs	Rs.2,800
Deepak Sahu	19 jobs	Rs.1,900
Total:		Rs.12,600

Close of Day — Dispatch Summary

One-click daily report with complete audit trail

SUMMARY INCLUDES FOR EACH DISPATCH

- Invoice Number (or 'MANUAL' tag with reason)
- Party Name (customer / buyer)
- Total Boxes in Consignment
- Transport / Porter Charges Paid
- Porter Name (who carried to transport)
- Dispatched By (employee name)
- Consignment Status (Dispatched / Pending / Hold)
- Physical Verification Timestamp

ADDITIONAL TOTALS

- > Total invoices dispatched today + pending carry-forward count
- > Total value dispatched (Rs.) + total boxes shipped
- > Transport-wise breakdown + city-wise count
- > Porter expenses for the day + weekly running total

Dispatch Summary — 13 Apr 2026

Total Invoices	42
Dispatched	35
Pending	4
On Hold	3
Items Shipped	1,247
Value Dispatched	Rs.8.4L
Boxes Shipped	186
Porter Charges	Rs.2,100
Transport Charges	Rs.4,800

Admin Dashboard View

Summary-only access with drill-down for pending dispatches

ADMIN GETS

- > Daily/weekly/monthly dispatch summary — total dispatched, pending, value
- > Export to Excel — full dispatch log with all card fields
- > Porter settlement report — weekly payable per porter
- > Transport expense analysis — city-wise, transporter-wise

DRILL-DOWN RULES

- **ONLY pending dispatches can be drilled down to card details**
- **Admin sees notes, remarks, hold reasons for stuck invoices**
- **Completed dispatches show summary row only — no clutter**

SECURITY & ISOLATION

- > FY-scoped — dispatch data isolated per financial year
- > Tenant ID + Company ID isolation — multi-company safe
- > 256-bit AES encryption for all dispatch records
- > reCAPTCHA v3 on dispatch terminal login
- > Mobile-responsive — admin can check from phone
- > Employee role 'dispatch' — limited access, terminal only

Terminal Display Design

Dark theme, touch-optimized, wall-mountable on 43" or 55" screen

CLOSE FOR DAY

Salesman Order System

Enterprise feature — field sales ordering with admin approval workflow

FOR SALESMAN (FIELD APP)

- > Login with mapped customer ledgers and outstanding from Tally*
- > See real-time inventory availability before placing order
- > Browse product catalog with stock levels and pricing
- > Create orders against mapped customers — item + qty + rate
- > View own order history and pending approval status

ORDER WORKFLOW

-  Salesman creates order
-  Order enters approval queue
-  Admin reviews — Approve / Reject / Modify
-  Approved order syncs to dispatch terminal
-  Dispatch processes and ships

FOR ADMIN

- > Order approval dashboard — approve, reject, modify quantities/rates
- > Salesman performance: orders placed vs targets, beat coverage

Salesman Module — Features

Beat plans, customer mapping, performance analytics

BEAT MANAGEMENT

- > Define daily/weekly beat plans — which customers to visit on which day
- > GPS check-in at customer location (optional)
- > Beat compliance tracking — planned vs actual visits
- > Beat working analysis reports — coverage, frequency, gaps

CUSTOMER MAPPING

- > Each salesman mapped to specific customer ledgers from Tally*
- > Salesman sees only their customers — isolated view
- > Outstanding visibility — can collect payments against invoices
- > Customer-wise order history and ledger balance

ANALYTICS

- > Orders per salesman — daily, weekly, monthly totals
- > Target vs achievement (value and quantity)
- > Product mix analysis — which salesman sells what most
- > Pending orders aging — how long orders sit in queue

Security & Technical Architecture

Enterprise-grade isolation for all new modules

DATA ISOLATION

- > All dispatch records scoped by Tenant ID + Company ID + Financial Year
- > Employee dispatch role — cannot access CRM, analytics, or admin features
- > Salesman role — sees only mapped customers and own orders

SECURITY LAYERS

- > Google reCAPTCHA v3 on terminal login and salesman login
- > 256-bit AES encryption for dispatch data at rest and in transit
- > JWT authentication with session idle timeout (15 minutes)
- > Audit trail — every status change logged with employee + timestamp

MOBILE & DISPLAY

- > Dispatch Terminal: optimized for 43" / 55" wall-mounted displays
- > Full kiosk mode (F11) — no browser chrome, dedicated dispatch view
- > Salesman module: fully mobile-responsive for phone use in the field
- > Admin views: responsive — works on desktop, tablet, and mobile

SYNC ARCHITECTURE

- > Desktop Agent v8 syncs invoices -> WebSocket push to terminal in real-time
- > Salesman orders flow back to admin -> approved orders push to dispatch
- > End-to-end: Tally* Invoice > Dispatch Terminal > Customer Notification
